

# WHO WE ARE

## What's our purpose?

At Arapahoe Libraries, we believe in turning every search for knowledge into a helpful adventure.

## How can each of us deliver on this vision?

By living and modeling these ideals in everything we do.

Curiosity is the cat's meow.

We have it, see it, cultivate it and celebrate it.

We know libraries are magical places.

Building memories, bridging gaps and learning new things; this is a wondrous place to be.

True colors really are beautiful.

We're embracing all by bestowing deep respect upon everyone with whom we cross paths.

Words have power, on the page and off.

So we choose them wisely, using kindness to build each other up.

Infallibility is for the inhuman.

As Alexander Pope said, "To err is human; to forgive, divine." We are not perfect people, but we aim to be accountable, gracious and humble ones.

Go team!

Here, we all come together to build a rock-solid team that achieves far more collectively than we ever could alone.
