Extension Activities to Learn More

1. For more information on insects, explore [National Geographic Kids Insects](#) or [Kid's Encyclopedia Insect Facts](#). You can also watch this video called [10 Interesting Insects](#) to learn more.
2. If you want to identify the birdsong you heard, try using “explore birds” on the **Merlin app** or reading **Noisy Bird Sing-Along** by John Himmelman.
3. To find out how bees and butterflies help plants, read **Beneficial Insects** by Emma Huddleston.
4. If you liked making the bird feeder and want to have more birds come to your yard, you can read the eBook **Build a Birdhouse** by Mirella S. Miller.
5. Try using the **LeafSnap app** or the **PlantNet app** to find out the names of the tree leaves you collected.
6. If you can't identify one of your minibeasts, try using the **Seek app by iNaturalist**. To attract more minibeasts to your yard, learn [How to Attract Wildlife to Your Garden](#).
7. For an additional activity with the items you collect make this [Nature Mobile](#).
8. Look at the book list to see if you can find out more about the creature you liked best.
9. Learn more about tree bark and how it helps the tree go to Britannica Kids [Bark](#). Or you can watch this video from PBS Adventures in Learning “[Learning About Trees](#)”.
10. To learn more, read **Birds and Their Feathers** by Britta Teckentrup or have fun celebrating the wonder of birds by reading **Fly With Me** by Jane Yolen.
