GRAB AND GO KITS
Diamond Art

SUPPLIES

GRAB & GO KIT: Canvas, plastic sheet, packets of diamonds, tray, wax, diamond painting pen
FROM HOME: Scissors, tape

INSTRUCTIONS

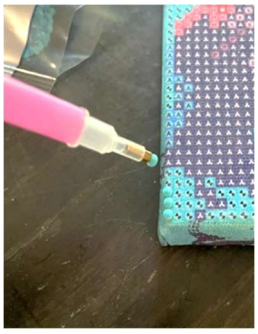

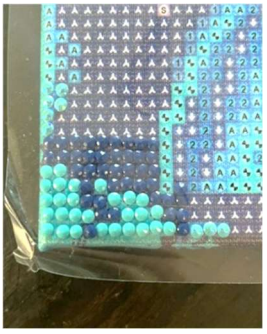

- Gather the supplies from your kit and home.
- Flip over your canvas and take a photo of the key for easy future reference.
- Select where on your canvas you would like to begin. I would recommend choosing a corner.
- Find the colored diamonds needed for the section you are going to work on first.
- Open the packet of diamonds you want to start with and put some on your tray.

- Peel the plastic sheet off your canvas and set to the side.
- Peel the plastic off one side of your wax and firmly press the tip of your pen into the wax.
- Use the tip of your pen to pick up a diamond and place the diamond on your canvas. The canvas is sticky, so the diamonds will stay in place.
- Continue this process using the correct correlating diamond colors until the section you are working on is complete.

Completing your entire diamond painting will take quite some time. Be prepared to work on it in sections and complete it as time permits. In the meantime…

- Place the plastic sheet back on your canvas to keep it sticky.
- Place the plastic back on your wax to keep it from drying out.
- Use tape to re-seal your packets of diamonds as needed.

UPCOMING EVENT

As American as Apple Pie: Norman Rockwell

Norman Rockwell's beloved depictions of Americans at play capture the heart of our national character through scenes of baseball games, fishing trips, swimming holes, and backyard gatherings that feel both timeless and intimately familiar. Presented by Jane Oneail founder of Culturally Curious.

Thursday, July 23, 2026
6:30 PM – 7:30 PM
Online event
