

changing lives from scratch

Little Kitchen Academy Enrichment Programs for Pre-K to Grade 12

Enhance your class curriculum by adding a Little Kitchen Academy school program! Students will gain practical life skills, confidence, and independence through hands-on learning. Our age-based Montessori-inspired curriculum is appropriate for Pre-K to Grade 12.

LKA has provided a transformative experience through over 100,000 student visits to our own schools and can deliver unique programs to your school that will:

- Develop students' overall confidence and independence
- Initiate healthy eating habits that will support students' focus and energy
- Promote a positive and healthy relationship with food
- Provide vital nutritional knowledge that can enhance athletic performance
- Teach essential practical life skills (including knife safety)
- Add a unique program that will differentiate your school curriculum
- Bring instant, tangible value to families in your school community

What to expect:

- A 3-hour guided, hands-on cooking experience
- Focus on seasonal ingredients, nutrition, and kitchen safety
- A delicious recipe made by each student Have fun with peers, gain practical life skills, and learn food literacy
- A fun, safe, and empowering environment to build confidence and independence

“

Thank you for teaching us how to cook amazing dishes. When I cooked the breakfast quesadilla for my family, the room filled with happiness. I was so excited to see their faces when they ate it. I have learned that cooking can really bring people together. I hope I can come and learn at Little Kitchen Academy again.

School Programs

Field Trips & Curriculum

Bring your students to Little Kitchen Academy for a field trip that is fun, educational and enriching with curriculum that inspires real-world learning, reinforces math and science concepts, in an environment that fosters creativity, problem-solving and healthy habits.

Giveback Program

Partner with Little Kitchen Academy to raise funds for your school! When your school promotes LKA to families, parents and the community, we'll give back a portion of the registration fees from students who register in an LKA program.

Camps and School Breaks

We offer week-long Spring, Summer, and Winter Break camps in addition to Professional Development Days, to ensure students have a safe and enriching experience during their school breaks.

After School Supper Club

Our 4pm weekday classes provide students with an opportunity to have an educationally rich experience after school where they will prepare and enjoy supper together!

Teen Classes

Prepare teens for an independent life away from home. Students learn to budget recipes before making them, make trending TikTok recipes, or create home-made versions of restaurant or store-bought dishes. Other classes challenge teens to make recipes with limited tools or with new cooking techniques.
